RESOLUTION NO. 200 (2025) WASTE MANAGEMENT SPECIAL USE PERMIT RENEWAL

WHEREAS, the Town Board of the Town of Macedon adopted a resolution on the application of Waste Management of New York, LLC dated June 26, 2025 for renewal of its special use permit for the existing Landfill located High Acres Landfill in the Town of Macedon which project operates Monday through Friday, 6:00 am to 4:30pm; Saturday, 6:00am to 2:00pm; and Saturday following a major holiday, 6:00am to 4:30 pm. and

WHEREAS, the application submitted showed that while the proposed application involved a permit renewal where there will be no material change in permit conditions or the scope of permitted activities, the Board was aware that, subsequent to the granting of its then current special use permit, the applicant had received a special use permit to construct an 8,000 SCFM (standard cubic feet per minute) Renewable Natural Gas (RNG) Facility adjacent to the High Acres Landfill & Recycling Center, and

WHEREAS, by reason of the aforesaid, the Town Board made preliminary SEQRA findings that the proposed renewal was subject to the New York State Environmental Quality Review Act and protectively gave the project a preliminary classification of Type I to allow the Town Board to further review the matter, and

WHEREAS, the Town Board has completed its preliminary review and makes the following findings:

High Acres, which is owned and operated by Waste Management of New York, LLC (WM), has been in operation since 1972. Since 2007, WM has operated High Acres pursuant to a Special Use Permit issued by the Town of Macedon. The Special Use Permit has a five-year term.

The Town of Macedon issued the current Special Use Permit for High Acres in 2022. WM recently applied to renew High Acres' Special Use Permit (a copy of that application is enclosed). As noted on page 2 of the application, since the current Special Use Permit was issued in 2022, the Town of Macedon approved WM's construction of a Renewable Natural Gas facility (RNG Facility) at High Acres following a separate review of the RNG Facility under the New York

State Environmental Quality Review Act (SEQRA). Besides construction and operation of the RNG Facility, WM's application to renew High Acres' Special Use Permit does not propose any operational changes – e.g., High Acres' permitted acceptance rate, site operating conditions, origin and type of materials managed, and hours of operation will all remain the same.

Renewal of a Special Use Permit “where there will be no material change in permit conditions or the scope of permitted activities” is a Type II action under SEQRA (6 NYCRR § 617.5[c][32]). An activity that has already been subject to environmental review under SEQRA is not a “material change” in “the scope of permitted activities” – and permitting entities are thus “not required to reconsider the environmental impacts of those activities” (*Stephentown Concerned Citizens v Herrick*, 280 AD2d 801, 804 [3d Dept 2001]).

Consequently, because WM is not proposing any material changes in the environmental conditions in the Special Use Permit or scope of permitted activities at High Acres, and the RNG Facility has already been subject to a separate SEQRA Review, the Town of Macedon has concluded renewal of the Special Use Permit is a Type II action under SEQRA (see *Stephentown Concerns Citizens*, 280 AD2d at 804; 6 NYCRR § 617.6[a][1]). Since renewal of High Acres' Special Use Permit is a Type II action, no coordinated review is necessary (6 NYCRR § 617.6[b][3]). However, because NYSDEC has previously been identified as an involved or interested agency with respect to actions at High Acres, the Town of Macedon provides the information in this letter as a courtesy.

NOW, BE IT RESOLVED THAT BE REASON OF THE AFORESAID:

- 1. The proposed action be and the same is hereby declared to by a Type II action as set forth in 6 NYCRR § 617.6[a][1].
- 2. The Town Engineer is directed to send the attached letter to NYSDEC as a courtesy to advise NYSDEC of the actions of the Macedon Town Board.
